AUTOMATION

Cumulative Editorial Index

Including January 1990 through December 1990. Number preceding hyphen is month of issue; numbers following are page numbers. AUTOMATION is indexed in Applied Science & Technology and the Engineering Index, available in libraries generally. Microfilm copies are available from University Microfilms, 300 N. Zeeb Rd., Ann Arbor, MI 48016. Reprints of early issues are available from Johnson Reprint Corp., 111 Fifth Ave., New York, NY 10003.

A

Allen, Linda G., A Chance for the Challenged? 4-41
Assembly System Saves Time for Timer Maker, 3-51
Bar Code Basics: How About A Review? 5-48
Costs & Inspection Time Nosedive as Quality Takes Off, 12-32
From Feasibility to Productivity: Are Technocrats the Secret to Success? 4-56
Globalization: Manufacturing Perspectives—Part I, 7-30
Management Challenges of the Nineties, 1-14
Process Engineering Looks to the Challenges Ahead, 9-28

Artificial Intelligence (AI)
AI-Based System Enhances Process Capability, 3-48
Smart Cars of the 21st Century, 10-18

Assembly
Assembly System Saves Time for Timer Maker, 3-51
Flexible Tooling for Flexible Assembly, 9-42
Putting Springs on Tape, 3-46

Automatic identification
Are You Ready for EDI? 3-24
Bar Code Basics: How About A Review? 5-48

B

Benedict, Powell, et al., Software Diagnoses Remote Computers Automatically, 6-46
Buiten, Roger, Material Handling in the 90s, 2-14

C

CAD/CAM
Getting Boxes out Quicker with Parametrics, 4-58
PC CAD Slashes Satellite Component Design Time, 8-60
Shaving the Time off of Prototyping, 6-48
Carstens, J.P., and F. Ernst, High-Powered Lasers, 4-44
Chatha, Andrew, Tips for Selecting a Systems Integrator, 10-35
Chung, Michael, Selecting and Applying Step Motors, 5-18

CIM
A Billion for CIM . . . How About That? 3-7
Aerospace Manufacturing in a Workstation Environment, 12-20
CAPP Comes to CAD and Manufacturing, 3-44
Planning for CIM, 6-56
Roadblocks to CIM? Don't Detour—Dismantle 'Em! 4-24
Saturn: GM Fights Back, 10-28
Systems Integration: What it is, What it isn't, 10-32
Tips for Selecting a Systems Integrator, 10-35

Clancy, James, Software Solves Problems in the Process Industries, 9-16
Clemmer, George, New Software Technology Helps Create Application Programs, 6-42

Communications
A Long Pipeline Has Links in Space, 9-52
Are You Ready for EDI? 3-24
CIM Network Automates PCB Production, 1-48
Networks: The Backbone of Integration, 5-28
Solving Manufacturing Problems with Neural Nets, 7-54

Computers & controls
A Rugged Alternative to Computer Disks, 4-30
Computers in Manufacturing: Knowledge (and Power) to the People, 7-22
Move Over Large PLCs, Small PLCs Are Taking Over, 4-20
One Device Captures and Links All Types of Factory Data, 3-36
Tracking Product Flow with E-Mail, 8-48

Cooper, Steve, A Rugged Alternative to Computer Disks, 4-30
Cullman, Jeff, Electrohydraulic Motion Control, 5-44

D

Day, Charles R., and Bernie Knill, EC 92: Economic Integration in Europe—Part II, 3-28
Dean, Kevin A., and Robert J. Trahan, Tracking Product Flow with E-Mail, 8-48
Dunlap, John, Refocusing on Vision, 6-59

E

Economics
Deficit Spending . . . Is the Party Over? 11-7
EC 92: Economic Integration in Europe—Part I, 2-18
EC 92: Economic Integration in Europe—Part II, 3-28
The Biggest Countries? Connecting the Dots . . . , 5-7

Editorials
A Billion for CIM . . . How About That? 3-7
A 27th Amendment: 'No Politician Shall . . . ,' 2-7
Beyond Quality Control, 4-7
Carts and Horses, 7-7
Deficit Spending . . . Is the Party Over? 11-7
Eco-Bullies and Education, 9-7
GNP Day, 6-9
Management . . . Theories & Myths, 10-7
Passionate Producers, 12-7
The Biggest Countries? Connecting the Dots . . . , 5-7
The Wealth of Nations, 8-7
Will We Survive the 90s? 1-7

Environment
Eco-Bullies and Education, 9-7
Electrochemical Technology for Waste Minimization, 12-12
Hazardous Wastes: Cleaning Up Your Act, 5-34
Process Engineering Looks to the Challenges Ahead, 9-28
Software Solves Problems in the Process Industries, 9-16
What Price Clean Air? 7-16

Ernes, Lynne M., and Lawrence J. Gestaut, The Search for Improved Corrosion-Resistant Steel, 4-36
Ernst, F., and J.P. Carstens, High-Powered Lasers, 4-44

F

Farver, Ron, Factory of the Future: Turn the Lights ON, 4-52
Friscia, Anthony J., Systems Integration: What it is, What it isn't, 10-32
Funk, Paul N., As a Management Tool, MRP II Lets Managers Manage, 5-62

G

Gestaut, Lawrence J., and Lynne M. Ernes, The Search for Improved Corrosion-Resistant Steel, 4-36
Goodman, Harvey, Flexible Tooling for Flexible Assembly, 9-40
Granville, Charles, CAPP Comes to CAD and Manufacturing, 3-44
